### Description:

And we know that in all things God works for the good of those who love him, who have been called according to his purpose. (Romans 8:28)6.7 billion of us human beings share this in common: we all have to face change. Our lives are in a constant state of transition. Life is always moving forward; nothing ever remains the same. To a greater or lesser degree, we are continually being transported--whether suddenly or gradually--into the new, the different, the unexpected, or the untried. Yet most people don't manage change effectively and positively. The Principles and Benefits of Change is a manual for times of change. It reveals how to prepare for any kind of change and use it for your benefit, enabling you to accomplish your God-given purpose in life. Thriving in a Changing World Change comes to all of us--whether we prepare for it or not. How we deal with those inevitable changes--no matter what the source--determines whether they will ultimately be a positive or negative force in our lives. Best-selling
